

FLORIDA TRAINING SERVICES

“PROVIDING APPRENTICESHIP TRAINING TO ALL INDUSTRIES AND THEIR AFFILIATES”

SURVEYOR PROGRAM

The Florida Training Services, Surveying and Mapping Technician Apprenticeship Program is designed to assist local surveying firms; offering training to their current employees or helping them find new ones through our school. This helps provide a well-trained and documented workforce.

WHAT IS SURVEYING AND MAPPING TECHNICIANS APPRENTICESHIP?

- § If you enjoy being outside, working with others and processing technical information, a career in surveying could be perfect for you.
- § Surveying and mapping technicians measure the ground surface, layout and structures, and the preparation of maps, profiles, cross sections and alignments.
- § Surveying and mapping technicians assist Surveyors by collecting data in the field, making calculations, and helping with computer-aided drafting.
- § Apprenticeship training is a highly structured training program consisting of on-the-job training and related technical instruction in the classroom.

The program is overseen by the Apprenticeship Training Committee. The program is registered with the State of Florida Department of Education. This is a two year program consisting of a minimum of 2000 hours of on-the-job training and a minimum of 144 hours a year of related classroom instruction to develop and maintain a skilled workforce for the Surveying and Mapping industry.

“... a career in surveying could be perfect for you..”
